

LS1390

laser cutting and engraving

In order to efficiently meet the market demands for laser marking, we developed the widlaser range of robust, reliable and technologically advanced equipment with extremely favourable conditions.

Dimensions (W x L x H)

Machine: 1925 x 1445 x 1110 mm | **Crate:** 1925 x 1445 x 1800 mm

Weight (kg)

Machine: Approx. 550 kg | Crate: Approx. 600 kg

Power: AC 230v 50/60Hz **Type of Laser**: CO2 laser tube

 $(Width\,x\,Length\,x\,Height)$

Best lasers in market

We have a full range of lasers available through partnerships with the best brands in the market.

Easy to use software

User-friendly software with powerful tools, suitable for beginners or professionals.

Endless applications

Cut and grave various materials with a single process. Autofocus for ease to use.

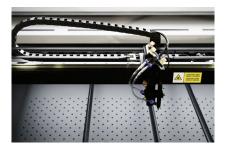

First-class materials

Thanks to the smart and robust design of the laser machines, we ensure their reliability, precision and robustness.

main features

- Type of laser: CO2 laser tube
- Minimum font size: 2 x 2 mm
- Max. speed: up to 60,000 mm/minute
- Supported file formats: AI, DST, PLT, BMP, DXF
- Software control: included
- Cooling: industrial chiller
- Extraction system: smoke extractor
- Connectivity: USB and network

workspace

- Working area: 1300 x 900 mm
- Adjustable height up to 300 mm
- Autofocus
- · Removable blades
- Honeycomb table
- Drawer for collecting objects

optional

• Rotary adaptor
