Main features

WIDLASER
FC3000

- Working area: 3000 x 1500 mm
- Maximum Speed: 120m/min
- X/Y positioning accuracy: 0.03mm/m approx.
- X/Y repetition accuracy: 0.02mm/m approx.
- Maximum Acceleration: 1.2G
- Laser power: 3000w
- Continuous laser and lens monitoring
- Professional control and monitoring software
- Automatic pull-out table with capacity for 800kg
- Security barriers
- Real-time monitoring cameras
- Fully enclosed industrial structure
- Automatic regulation of gas values
- Double extraction system, lower and upper

Dimensions (WxLxH)

Equipment: 5200 x 2370 x 1900 mm

Extractor: 1370 x 1300 x 2300 mm

Weight (KG)

Equipment: 4500 kg

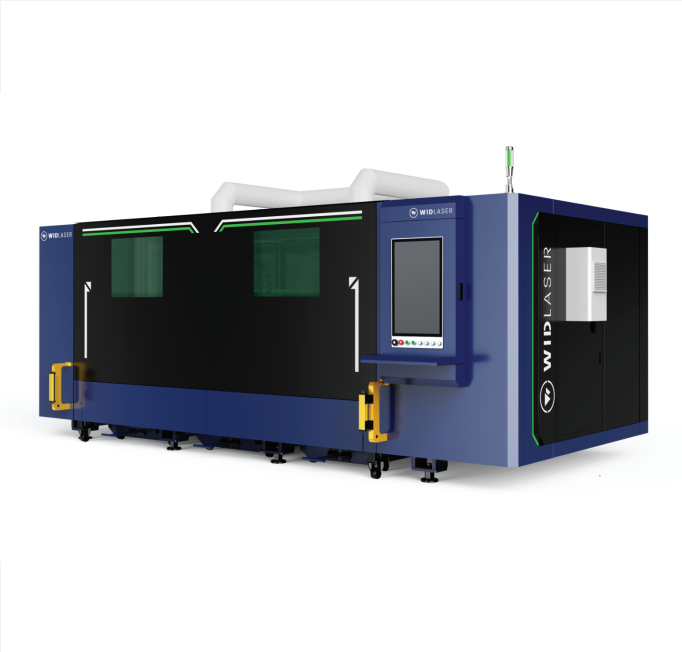

Extractor: 400 kg

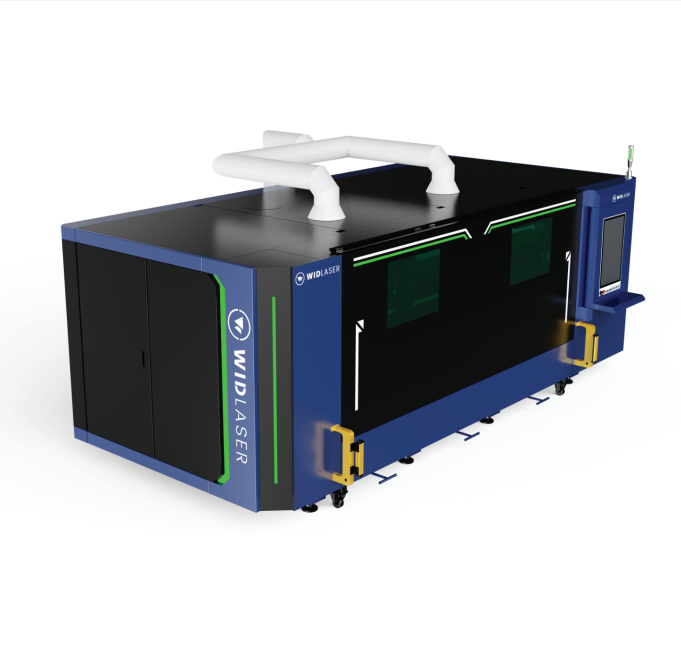

Power supply

3000w

Laser Type

Raycus de 3000w
